## CHILD SAFETY

**It makes a difference how and where you use your flat panel display**

**As you enjoy your new product, keep these safety tips in mind**

### *The issue*

The home theater entertainment experience is a growing trend, and larger TVs are popular purchases. However, TVs are not always supported on the proper stands or installed according to the manufacturer's recommendations. We and the consumer electronics industry are committed to making home entertainment enjoyable and safe. TVs that are inappropriately placed on dressers, bookcases, shelves, desks, speakers, chests, or carts may fall over and cause injury.

### *Tune into safety*

- One size of TV stand does **not** fit all. Use only a TV stand rated for the weight of your TV.
- Carefully read and understand all enclosed instructions for proper use of this product.
- Don't let children climb on or play with entertainment system furniture and TVs.
- Don't place TVs on furniture that can easily be used as steps, such as a crate or chest of drawers.
- Remember that children can become excited while watching a program, especially on a "larger-than-life" TV. Make sure that you place or install the TV where it cannot be pushed, pulled over, or knocked down.
- Make sure that you route all cords and cables so that they cannot be pulled or grabbed by curious children.

### *Wall mounting*

If you decide to wall mount your TV, always remember:

- One size of wall mount does **not** fit all. Use only a wall mount rated for the weight of your TV and that has been recommended by this TV manufacturer, listed in this manual, or otherwise listed by an independent laboratory as suitable for your TV.
- Follow all instructions supplied by the TV and wall mount manufacturers.
- If you have any doubts about your ability to safely wall mount your TV, get help from a professional installer.
- Make sure that the wall where you are mounting the TV is appropriate. Some wall mounts are not designed to be mounted to walls backed with steel studs or cinder blocks. If you are unsure, ask a professional installer.
- TVs can be heavy. At least two people are required for safe wall mount installation.

## Important safety instructions

**CAUTION**  
**RISK OF ELECTRIC SHOCK**

**DO NOT OPEN**

**A** This symbol indicates that dangerous voltage constituting a risk of electric shock is present within your TV. This label is located on the back of your TV.

**A** This symbol indicates that there are important operating and maintenance instructions in the literature accompanying your TV.

- 1 Read these instructions.
- 2 Keep these instructions.
- 3 Heed all warnings.
- 4 Follow all instructions.
- 5 Do not use this apparatus near water.
- 6 Clean only with a dry cloth.
- 7 Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8 Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9 Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10 Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11 Only use attachments/accessories specified by the manufacturer.
- 12 Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.  

- 13 Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14 Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- 15 The wall plug is the disconnecting device. The plug must remain readily operable.
- 16 An apparatus with a three-prong, grounding-type plug is a Class I apparatus, which needs to be grounded to prevent possible electric shock. Make sure that you connect this Class I television to a grounding-type, three-prong outlet.
- 17 Remote control batteries should not be exposed to excessive heat such as sunshine, fire, or the like.
- 18 The apparatus should not be exposed to dripping or splashing, and no objects filled with liquids, such as vases, should be placed on the apparatus.
- 19 POWER SOURCE: This TV should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply to your home, consult your appliance dealer or local power company. For TVs intended to operate from battery power, or other sources, refer to the operating instructions.
- 20 POWER CORD PROTECTION: Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance.
- 21 OVERLOADING: Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock.

- 22 OUTDOOR USE: Do not install this TV outdoor. If the TV is exposed to rain, it may result in a fire or an electric shock. If the TV is exposed to direct sunlight, the TV may heat up and cause damage to the TV.
- 23 VEHICLE: Do not install the TV in a vehicle. Bumping of the vehicle may cause the TV to fall down and cause injury.
- 24 SHIP AND VESSEL: Do not install this TV in a ship or vessel. If the TV is exposed to seawater, it may cause a fire or damage the TV.
- 25 OBJECT AND LIQUID ENTRY: Never push objects of any kind into this TV through openings as they may touch dangerous voltages points or short out parts that could result in fire or electric shock. Never spill liquid of any kind into the TV.
- 26 SERVICING: Do not attempt to service this TV yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
- 27 REPLACEMENT PARTS: When replacement parts are required, be sure that the service technician uses replacement parts with the same characteristics as the original parts specified by the manufacturer. Unauthorized substitutions may result in fire, electric shock, injury to persons or other hazards.
- 28 SAFETY CHECK: Upon completion of any service or repairs to this TV, ask the service technician to perform routine safety to determine that the TV is in proper operating condition.
- 29 WARNING: Plug the power cord into a power outlet where access to the power cord connector is readily accessible, in case if the power needs to be immediately disconnected.
- 30 ATTENTION: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- 31 For use only with UL Listed Wall Mount Bracket with minimum weight/load 9kg.
- 32 The product failure, only professional maintenance staff maintenance, not for opening the back cover. MAINTENANCE (Recommended for three months.) Early malfunctions can be prevented. Careful and regular cleaning can extend the amount of time you can enjoy your new TV.  
Caution: Be sure to turn the power off and unplug the power cord before you begin any cleaning.
- 33 CLEANING AND DISINFECTION
- 34 Clean the exterior of this television by removing dust with a lint-free cloth. CAUTION: To avoid damage to the surface of the television, do not use abrasive or chemical agents. Spot test a new disinfectant by applying a test cleaning a non-obvious small spot on the TV's back cabinet, keypad. Allow the disinfectant to soak per its instructions and then wipe clean. Do not use the disinfectant if the TV's surfaces show any sign of discoloration or softening.
- 35 Disinfection: Disinfection usually involves ultraviolet light.
- 36 The apparatus can not be located near bed.

## Warnings

**Electric shock hazard**

To reduce the risk of fire or electric shock, do not remove any cover or expose the device to rain or moisture. No user-serviceable parts are inside. Refer servicing to qualified service technicians.

**Lightning**

For added protection for your device receiver during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the power outlet and disconnect any antenna or cable system. This helps prevent property damage and personal injury from lightning and power line surges.

**Power lines**

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as contact with them might be fatal.

**Handling the LED panel**

- Your TV's screen is made of glass. Do not drop your TV or hit, jolt, or press hard against the LED panel. If the screen breaks, be

careful of broken glass.

- If the LED panel is broken, make absolutely sure that you do not touch the liquid in the panel. This may cause skin inflammation.
- If the liquid gets in your mouth, immediately gargle, rinse, and consult with your doctor. Also, if the liquid gets in your eyes or touches your skin, consult with your doctor after rinsing for at least 15 minutes or longer in clean water.

#### **Replacement parts**

When replacement parts are required, make sure that the service technician uses replacement parts specified by the manufacturer that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, personal injury, or other hazards.

#### **Safety check**

After completing any service or repair to this device, ask the service technician to perform routine safety checks to determine that your TV is in correct operating condition.

#### **Power source**

Operate your TV only from the type of power source indicated on the marking label. If you are not sure of the type of power supplied to your home, consult an electrician or your local power company.

#### **HDMI™**

This TV incorporates High-Definition Multimedia Interface (HDMI™) technology. HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.

#### **Cautions**

##### **Damage requiring service**

Unplug this TV from the power outlet and refer servicing to qualified service personnel under the following conditions:

- When the power supply cord or plug is damaged or frayed.
- If liquid has been spilled or objects have fallen into your TV.
- If your TV has been exposed to rain or water.
- If your TV does not operate normally by following the operating instructions. Adjust only those controls that are covered by the operating instructions because incorrect adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore your TV to its normal operation.
- If your TV has been dropped or damaged in any way.
- When your TV exhibits a distinct change in performance.

#### **Outdoor antenna grounding**

If an outside antenna or cable system is connected to your TV, make sure that the antenna or cable system is grounded to provide some protection against voltage surges and built-up static charges. Article 80 of the National Electrical Code, ANSI/NFPA No. 70, provides information with respect to correct grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of the antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Article 820 of the National Electrical Code, ANSI/NFPA No. 40 provides guidance for correct grounding. Specifically, it states that the cable ground must be connected to the grounding system of the building as close to the point of cable entry as practical.

#### **Condensation**

Moisture will form on the TV if the TV is brought from cool surroundings into a warm room or if the temperature of the room rises suddenly. When this happens, the TV's performance may be impaired. To prevent this, let the TV stand in its new surroundings for about an hour before switching it on, or make sure that the room temperature rises gradually. Condensation may also form during the summer if the TV is exposed to the breeze from an air conditioner. In such cases, change the location of the TV.

#### **Mobile telephone warning**

To avoid interference with your TV picture and sound, operating problems, or even damage, keep your cordless and cellular telephones away from the TV.

#### **End of life directives**

Your TV contains tin-lead solder and a fluorescent lamp containing a small amount of mercury. Disposal of these materials may be regulated for environmental reasons. Your TV also contains material that can be recycled and reused. For disposal or recycling information, contact your local authorities or the Electronic Industries Alliance at [www.eia.org](http://www.eia.org) to find a recycler in your area.

#### **Non-active pixels**

The LED panel contains almost 3 million thin film transistors, which provide exceptionally sharp video quality. Occasionally, a few non-active pixels may appear on the screen as a fixed blue, green, or red point. These non-active pixels do not adversely affect the performance of your TV, and are not considered defects.

#### **Accessories**

Make sure the following accessories are included in the box with your TV:

- Remote control

- AC power cord

- Stand

- AAA batteries (2)

- Quick Setup Guide

#### **Installing and removing the stand**

You must install your TV into the stand in order for it to stand upright on a cabinet or other flat surface. If you intend to mount your TV on a wall or other vertical surface, you must remove the stand.

**Warning:** Before attempting assembly or removal of the stand, unplug the AC power cord.

##### **Cautions:**

- Read these instructions carefully before you try to assemble the stand or remove the stand.
- Make sure that you handle the TV carefully when attempting to assemble or remove the stand. If you are not sure of your ability to do this, contact a professional installer or service technician. Hisense is not responsible for any damages or injuries that occur because of mishandling or incorrect assembly.
- Use a soft cushion or covering to prevent scratching or damage to the TV screen or cabinet.

#### **Installing the stand**

**Note:** Your TV may differ from the illustrations shown.

##### **To install the stand:**

- Insert the stand column into the base plate, aligning the ridge on the column with the groove in the base plate.

Making sure the FRONT of stand column match the FRONT of base plate.

#### **Note to CATV system installer**

Secure the stand column to the base plate with the four screws (M4, 12mm) provided.

- 2** Secure the stand cover to the stand column vertically with the 2 screws (M4, 12mm) provided. Secure the stand cover to the stand column horizontally with the 2 screws (ST4, 14mm) provided.

- 3** Insert the stand cover into the slot of TV bottom side and secure the stand to the TV with the four provided screws (M5, 12 mm).

## Attaching the TV to a desk

Here shown may be somewhat different from your TV. The TV must be attached to desk so it cannot be pulled in a forward/backward direction, potentially causing injury or damaging the product.

**Screws:M5×L(table depth + 8~10mm)**

**Example:Table depth = 15mm Screws:M5×25**

### NOTE:

Be sure to follow the instructions, incorrect installation of the stand (pedestal) may result in the TV falling over.

## Removing the stand

You must remove the stand before you can wall-mount the TV.

**Note:** Your TV may differ from the illustrations shown.

### To remove the stand:

- 1 Lay the TV (screen down) on the edge of the table or bench. Make sure that you put a soft cloth or cushion between the table or bench and the TV.
- 2 Remove the 4 screws holding the stand to the TV, then remove the stand.

Item	Name	Description
①	Power indicator	The light shows whether the TV is on or standby mode.
②	Remote control sensor	Receives signals from the remote control. Please do not block.
③	<b>MENU</b>	Display the onscreen display(OSD) or Exit to close the OSD.
④	<b>INPUT</b>	Select the <b>INPUT</b> menu.
⑤	<b>VOL+ / VOL-</b>	Volume adjusting bottom,to increase or decrease the volume.
⑥	<b>CH ▲ / CH ▼</b>	Channel selection bottom,to increase or decrease the channel.
⑦	<b>⑦ (power)</b>	Press to turn your TV on or off (standby mode).

## Installing a wall-mount bracket

If you want to attach the TV to a wall-mount bracket, you should first remove the stand if it is pre-attached. Carefully place your TV screen face-down on a cushioned, clean surface to protect the screen from damages and scratches. Insert four spacers (provided) into the corresponding bracket screw holes on the back of your TV, then attach the wall-mount bracket to your TV using four screws (provided) or the screws/spacers provided with the wall-mount bracket. See the instructions that came with the wall-mount bracket for screw/washer configurations and information on how to correctly hang your TV.

### Warning

To prevent internal damage to the TV and ensure the TV is mounted securely, be sure to use fixing screws (provided).

Wall-mount screw size (mm)	Wall-mount hole pattern VESA (mm)
M4	100×100

## Back connections

Item	Name	Description
①	<b>USB</b>	This unit has USB interface and can be connected the stand avd USB 1.1 and USB 2.0 USB FLASH STICK.
②	<b>ANT IN jack</b>	Connect an antenna or cable TV to this jack.
③	<b>SERVICE</b>	Service only, don't use.
④	<b>COMP/ AV</b> jack	Connect component video devices to these jacks. Connect a standard AV device, such as a camcorder or game console, to these jacks.
⑤	<b>PC AUDIO</b> jacks <b>VGA</b> jack	Connect a computer (audio and video) to these jacks.
⑥	<b>HDMI 1/2</b>	Connect an HDMI device to one of these jacks.
⑦	<b>DIGITAL AUDIO OUT</b> jack	Connect a digital coaxial cable to this connector, then to a digital sound system.
⑧	<b>PILLOW SPEAKER</b> <b>SWITCH</b>	When the switch is select to on, pillow speaker function will be respond.
⑨	⑨ (headphone) jack	Plug headphones into this jack.
⑩	RJ12	Connect a RJ-12 Cable to this jack, then to an external control device(such as a computer or A/V control system), to control the TV functions externally.
⑪	<b>PILLOW SPEAKER</b>	Used to connect to pillow speaker.

Item	Name	Description
(1)	<b>POWER</b> ⏻	Press to turn on the TV or put the TV in standby mode. <b>Caution:</b> The TV continues to receive power even in standby mode. Unplug the power cord to disconnect power.
(2)	<b>Numbers</b>	Press the number buttons to enter channel numbers or the parental control password.
(3)	<b>— (dash)</b>	Press to select a digital sub-channel.
(4)	<b>CCD</b>	Press to turn closed captioning on or off. For more information.
(5)	<b>VOL ^ / VOL \</b>	Press to increase or decrease the volume.
(6)	<b>MUTE</b>	Press to mute the sound. Press again to restore the sound.
(7)	<b>PICTURE</b>	Press to select the video mode. You can select Standard, Custom, Vivid, Game, Cinema and Power Saver.
(8)	<b>MENU</b>	Display the main menu. Go back to previous menu.
(9)	<b>RETURN</b>	Not available.

Item	Name	Description
⑩	◀◀	Play the previous files.
▶▶	▶▶	Play the next files.
■■	■■	When you are listening to music and enjoy pictures. You can switch between playing and pause through this button.
■	■	Exit the current state.
▲▲	▲▲	Not available.
▼▼	▼▼	Not available.
⑪	ASPECT (Zoom button)	Select screen mode.
⑫	TIME	Not available.
⑬	AVCOMPONENT NGA/HDMI	Select VIDEO/COMPONENT/ PC / HDMI source.
⑭	INPUT	Press to open the INPUT SOURCE menu, then press ▲ or ▼ to select the video input source you want.
⑮	TV	Press to select the TV as the video input source.
⑯	LAST	Return to previous channel.
⑰	CHLIST	Display the channel name.
⑱	CH^/CH^	Press to go to the next or previous channel in the channel list.
⑲	DISPLAY	Display the information banner.
⑳	SOUND	Press to select the sound mode. You can select standard, custom, dynamic and clear voice.
㉑	EXIT	Press to close the on-screen menu.
㉒	▲▼◀▶	Press ▲ or ▼ to move up or down in on-screen menus. Press ▲ or ▼ to move left or right in on-screen menus or to adjust menu settings.
㉓	ENTER	Press to confirm selections in on-screen menus or to open sub-menus.
㉔	GUIDE	Press to open the DTV program guide(if available).
㉕	Program guide (EPG) function	After pressing the GUIDE button in the digital TV channel option, the same color buttons will appear with explanations in the on-screen display (OSD). Follow the steps shown in the OSD.
㉖	USB	Select DMP source.
㉗	MTS/SAP	In analog TV mode, press to select STEREO, SAP (secondary audio language), or MONO. In digital TV mode (DTV), press to select the audio track. For more information.
㉘	SLEEP	Press to set the sleep timer.

#### Battery precautions:

- Dispose of batteries as hazardous waste.
- Do not mix batteries of different types.
- Do not mix old and new batteries. Mixing old and new batteries can shorten the life of new batteries and can cause old batteries to leak.
- Remove batteries as soon as they become unpeable. Chemicals that can leak from the batteries can cause a rash. If the batteries leak, clean the battery compartment with a cloth.
- If the remote control is not used for an extended period of time, remove the batteries.
- Do not expose batteries to excessive heat such as sunshine, fire, or other heat sources.

#### Aiming the remote control

##### To aim the remote control:

- Point the remote control towards the remote sensor on the front of your TV.

## Using the remote control

### Installing remote control batteries

#### To install remote control batteries:

- 1 Press down on the battery compartment cover lock, then remove the remote control cover.
- 2 Insert two AAA batteries into the battery compartment. Make sure that the + and - symbols on the batteries match the + and - symbols in the battery compartment.
- 3 Replace the cover. Make sure that the lock snaps into place.
- 4 Install screw.

#### Notes:

- Do not expose the remote control to shock or liquids.
- Do not use the remote control in an area with high humidity.
- Do not place the remote control in direct sunlight.
- Do not place objects, such as furniture, between the remote control and the remote sensor.
- The remote control may not work if direct sunlight or bright light shines on the remote sensor. Either move your TV or change the angle at which you use the remote control.

## Making connections

Before you make any connections:

- Check the plugs on the ends of cables to make sure that they are the correct type before you try plugging them into jacks on the TV.
- Make sure that all plugs are securely inserted into the jacks. Loose connections can result in image or color problems.
- When connecting devices to the TV, make sure that the TV and the device are turned off and that the power cords are unplugged.

## Connecting the power

To connect the power cord:

- Connect the power cable to the **AC IN** jack on the back of the TV, then connect the other end to a power outlet.

### Notes:

- The AC plug on the TV may be different from the one shown.
- Make sure that you only use the type of power source indicated on the marking label.
- Always unplug the power cord when not using the TV for a long period of time.

## Selecting a location

You should select a location for the TV:

- Where direct light does not reflect on the screen
- That has indirect and soft lighting
- Where the TV has access to an antenna or cable TV connection
- Where the TV has access to a power outlet

**Note:** Watching TV in total darkness or with a reflection on the screen may cause eye strain.

## Connecting an HDMI device

**Note:** If your device has an HDMI connection, we recommend you use it to get the best picture and sound quality possible.

**To connect an HDMI device:**

- Connect one end of an HDMI cable (not included) to the HDMI 1 or HDMI 2 jack on the side of your TV, then connect the other end of the cable to the HDMI OUT jack on the HDMI device.

## Connecting a component video device

Component cables often have red, green, and blue color-coded video connectors and red and white audio connectors. Match the colors when making connections.

**To connect a component video device:**

- 1 Make sure that your TV's power cord is unplugged and the component video device is turned off.
- 2 Connect a component video cable to the **COMPONENT OUT** jacks on the component video device.

- 3 Connect the other end of the component video cable to the **COMPONENT** jacks on the back/side of your TV.
- 4 Connect an audio cable to the **AUDIO OUT** jacks (L/R) on the component device.
- 5 Connect the other end of the audio cable to the **COMPONENT AUDIO-R** and **AUDIO-L** jacks on the back/side of your TV.

**To play from the component video device:**

- 1 Turn on the TV, then press **INPUT**. The **INPUT SOURCE** menu opens.
- 2 Press **▲** or **▼** to select **Component**, then press **ENTER**.
- 3 Turn on the component video device and start playback. Refer to the instructions that came with the component video device.

**Connecting an antenna, cable TV, or satellite TV box**

If you are connecting a satellite TV or cable box, you can use one of the following (if available):

- Best - HDMI cable
- Better - Video component cables
- Good - Video composite cable
- Acceptable - 75-ohm coaxial cable.

**To connect an antenna, cable TV, or satellite TV box:**

- Connect one end of a 75-Ohm, coaxial cable to the **ANT IN** jack on the back of the TV, then connect the other end of the cable to the antenna or cable TV wall/jack.

**Note:** Cables are often color-coded to connectors. Connect yellow to yellow, red to red, and white to white.

VCR, camcorder, or game console

Computer

**To play the external AV device:**

- 1 Turn on the TV, then press **INPUT**. The **INPUT SOURCE** menu opens.
- 2 Press **▲** or **▼** to select **Video**, then press **ENTER**.
- 3 Turn on the device, then start playback on the device.

**Connecting a computer****To connect a computer:**

- 1 Make sure that your TV's power cord is unplugged and the computer is turned off.
- 2 Connect one end of a VGA cable (not included) to the **VGA** jack on the side of the TV, then connect the other end of the cable to the VGA jack on the computer. The D-Sub cable will not be supplied with the product. We strongly recommend to use D-Sub cable with 2 cores as shown in the figure.

**Notes:**

- We recommend using a 75-Ohm coaxial cable to reduce interference and noise that may be caused by radio wave transmissions.
- Do not bundle the coaxial cable with the power cord or any other cables.
- If you are using an antenna and reception is not good, contact a service technician to adjust the antenna.

**Connecting a VCR, camcorder, or game console**

**Note:** If the VCR, camcorder, or game console has component jacks (better), or an HDMI jack (best), connect them using the best available connection.

**To connect a VCR, camcorder, or game console:**

- 1 Make sure that your TV's power cord is unplugged and the VCR, camcorder, or game console is turned off.
- 2 Connect one end of a standard AV cable (not included) into the **AV** video jack on the back of the TV, then connect the other end of the cable to the **AV OUT VIDEO** jack on the external device.

**To play video from the computer:**

- 1 Turn on the TV, then press **INPUT**. The **INPUT SOURCE** menu opens.
- 2 Press **▲** or **▼** to select **PC**, then press **ENTER**.
- 3 Turn on the computer, then adjust the computer display properties as needed.
