

# Setting Up

## Installing the Stand/Wall mount specifications

### Installing the Stand

1. Lay a cloth or another soft material on a flat surface to avoid damage to the LCD screen.
2. Put the TV back upward and the LCD screen downward and keep it flat on the table-board.
3. Take out the stand and insert the stand into the installing slot in the lower part of the TV, then put the stand to relevant position of the TV set until all the holes match each other completely.
4. Fasten the stand and the TV set together with the 4 screws provided. Erect the TV set, and put it on the proper position for watching.

#### Note:

The above figures are for reference only, please refer to the actual units to determine the appearances. Every hole of the stand must be fastened with screws!

### Wall mount specifications

Install your wall mount on a solid wall perpendicular to the floor. When attaching to other building materials, please contact your nearest dealer. If installed on a ceiling or slanted wall, it may fall and result in severe personal injury.

- Dimensions for wall mount kits and wall-mount screws pattern please refer specifications table.
- Do not use screws longer than the standard dimension, as they may cause damage to the inside of the TV set.
- For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on their specifications.
- Do not use screws that do not comply with the VESA standard screw specifications.
- Do not fasten the screws too strongly, this may damage the product or cause the product to fall, leading to personal injury.
- Proscan is not liable for product damage or personal injury when a non-VESA or non-specified wall mount is used or the consumer fails to follow the product installation instructions.
- Do not exceed 15 degrees tilt when mounting this TV.

# Setting Up

## Wall mount

### Wall-mounting Bracket Installation

	42LC55S240V87	47LC55S240V87	55LC55S240V69
Unit Dimension(Unit:mm)	400×200	400×400	400×400
Screw Diameter	M6	M6	M8
Screw Length(Unit:mm)	12	12	12

**NOTE:** Wall mount bracket is not included with TV and mounting of wall mount bracket to wall may vary depending on brand and size of bracket. Customer should consult bracket mounting instructions that came with wall mount for specific information on how to mount bracket to wall.

#### Removing TV Stand

1. Cover the surface of the table with soft cloth to avoid damage to LCD panel.
2. Lay the TV on a plane table which could bear a weight enough.
3. Remove the 4 bolts fixing the stand and remove the stand from TV.

Before reading the installing instruction, please notice:

- A. The wall mount is not contained in the accessories sold with television. We only provide the installing specifications but not the wall mount itself. If you need the mount, please consult with the local dealer for the assorted fitting parts.
- B. We strongly suggest to set the wall mount with equipments of specification we ordered. If not, inappropriate installing may cause damage to both the device and yourself.

# Setting Up

## Wall mount

### When Installing the TV Against a Wall or Enclosed Area

Make sure that your TV has adequate air circulation. Allow enough space around the TV as shown below. Avoid operating the TV at temperatures below Inadequate air 45° F (5°C)

Instand with stand

Leave at least this much space around the set.

Install on the wall

Never install the TV set as follows:

Air circulation is blocked.

Inadequate air circulation can lead to overheating of the TV and may cause damage to your TV or cause a fire.

# Setting Up

## TV Rear

### TV Rear

Note: The appearance of 42LC55S240V87 47LC55S240V87 and 55LC55S240V69 are similar, the picture above is for reference only.

# Setting Up

## Connect to other devices

**Warning:** Before connecting the TV to any other electronic device, unplug the TV and electronic device AC cords from the AC input.

**Note:** Not all following terminals are included on your TV. The actual one refer to "TV Rear".

### 1. Connect to broadcast antenna or the cable TV

To have an optimal picture quality, it is strongly recommended to have an external antenna or a cable TV.

Note:

- It is recommended that coaxial cable ( $75\Omega$ ) be used to eliminate the interference caused by the mismatched impedance.
- The antenna cable should not be bound together with the power cord.
- When using the cable TV, please insert the plug of the coaxial cable ( $75\Omega$ ) directly into the antenna outlet.

### 2. Connect to AV devices

- Connect a Video RCA or S-VIDEO cable to an appropriate external A/V device such as a VCR, DVD or Camcorder.
- Connect RCA audio cables to "R -AUDIO - L" and Video/S-Video on your set and the other ends to corresponding audio and Video/S-Video out connectors on the A/V device.

Note: For some sets the audio of S-Video share with AV.

## Setting Up

### Connect to other devices

3. Connecting Component Devices (DVD, DVR (digital video recorder), Blu-Ray) Component video(Y, Pb, Pr)transmits video as separate Y, Pb, Pr signals. Use this connection for high-definition video signals from a DVD or other equipment.
- Connect Component video and audio cables to Component inputs ("PR/CR", "PB/CB", "Y") of your set and the other ends to corresponding component video out connectors on the PVR or DVD.
  - The "Y, PB/CB and PR/CR" connectors on your component devices ((DVD, DVR (digital video recorder), Blu-Ray) are sometimes labeled Y, B-Y and R-Y or Y, CB and CR. (Colors for inputs and cables must correspond on both devices.)

#### 4. Connect to devices with HDMI interface

HDMI: High Definition Multimedia Interface

HDMI transmits an all-digital signal and is the recommended choice for playback from a digital DVD or DVR. No sound connection is needed for HDMI to HDMI connection.

- HDMI cable connected to the HDMI connector on the TV.

The equipment with HDMI output jack ( such as DVD players, set-top boxes, etc.).

# Setting Up

## Connect to other devices

### 5. Connect to PC

- Connect the D-Sub cable to "VGA" on the rear of your set and the other end to the Video Card of your computer.
- Connect the stereo audio cable to "PC AUDIO" on the rear of your set and the other end to "Audio Out" of the sound card on your computer.

Note: For some sets "PC AUDIO" share with component.

### 6. Connect to headphone

- Connect the headphone jack of the TV set.
- The volume of the headphone is automatically adjusted with the main volume of the TV set.

# Using the remote Control

## Installing batteries

### Installing the remote control batteries

1. Open the battery cover on the back of the remote control.
2. Install two AAA size(1.5V) batteries. Match the “+” and “-” signs on the batteries to the signs on the battery compartment.
3. Close the battery cover.

#### Note:

1. Dispose of your batteries in a designated disposal area. Do not throw the batteries into fire.
2. Do not mix battery types or combine used batteries with new ones.
3. Remove depleted batteries immediately to prevent battery acid from leaking into the battery compartment.
4. If you do not intend to use the remote control for a long time, remove the batteries.
5. The effective range of remote control is suggested below.

#### Remote control range

1. The remote control distance: 8 meters(26.2 feet) in front of the TV set.
2. The remote control angle: taking the television infrared light receiver window as an apex, 6 meters (19.7 feet) away, its controlled angle (left to right) is within 30 degrees, while the vertical angle (up to down)is within 30 degrees.

Note: The design of the remote control is subject to change and may be different from the actual one. Those buttons without comment have no relations with this TV.

# Using the Remote Control

## Basic Operation

### Connecting power cord to the TV

1. Connect the power cord to the connector on the back of the TV, if the power cord in accessories.  
Note: When connecting the power cord to the connector of the TV, make sure the power cord is fully inserted in the place. Bad contact may cause high temperature of the connector and the risk of fire or other damages.
2. Connect the power cord to the AC power outlet.

### Power ON/OFF

1. Connect the TV to a power outlet. If the power indicator is red, it means that the TV is STANDBY. Press the Standby button on the front control or on the remote control to turn the TV on. Once the TV is turn on, the power indicator will be displayed as blue. Several seconds later, the TV picture will be displayed on the screen.
2. Press the Standby button on the front control or on the remote control to turn the TV off temporarily.
3. Always remove the AC power plug from the outlet when not using this TV for a long period of time.

### Signal source selection

Press the [INPUT] button to select TV, AV, S-Video, Component, VGA and HDMI inputs. There are two ways to select the source: One is to press the [INPUT] button continuously, while the other is to use the ARROW and [ENTER] buttons to confirm the source.

### Select channels

Please use [CHΔ / CHV] button on the remote panel to select channels. [CHΔ] indicates channel number up; [CHV] indicates channel number down. Press [CHΔ / ChV] button on the side panel of the TV to select the channels. If you want to choose any of the skipped channels, press the number directly.

### Use [Mute] button

Press the [Mute] button to mute the sound. Press the [Mute] button again to resume the sound.

### Select picture modes

Press the [PICTURE] button to select the picture mode from four options: Standard, Cinema, User or Vivid. You can adjust the picture mode based upon your personal preference.

### Select sound modes

Press the [AUDIO] button to select sound modes from Standard, Speech, User or Music.

### Select screen modes

Press the [ASPECT] button to select from six zoom modes: Wide, Normal, Zoom, Cinema , Dot-to-Dot or Auto.

### Use [GUIDE] button

Press the [GUIDE] button to display features of the ATSC program and the EPG function.

### Use [DISPLAY] button

Press the [DISPLAY] button to view current source information.

# Using the Remote Control

## Use [EXIT] button

Press the [EXIT] button to exit the OSD menu.

## Select channels by numbers

To select a channel: Press the channel number you would like to go to. For example, to select channel number 120, press buttons 1, 2 and 0, respectively and then press [ENTER] to confirm.

## Use [MENU] button

Press the [MENU] button to display the TV OSD menu.

## Use [LAST] button

Press the [LAST] button to return to the previous channel.

## Use [ENTER] button

Press the [ENTER] button to select a particular item.

## Adjust Volume

Press [VOL\ / VOL\] button to adjust the volume.

## Use [CCD] button

Press the [CCD] button to change the CCD mode. Using this button will set the Closed Caption mode when viewing a DTV or TV channel.

Note: Set the default Closed Caption setting for all channels in the Menu. For ATV the options are CC1, CC2, CC3, CC4, TEXT1, TEXT2, TEXT3, TEXT4 or Off. For DTV, the options are from Service1 to Service6 or Off.

## Use [MTS/SAP] button

Press the [MTS/SAP] button to change the sound mode (Mono, Stereo, SAP). This button will select the MTS options of Stereo, SAP, or Mono in TV mode, alternate audio channels, and when available, in DTV mode.

## Use [SLEEP] button

Press the [SLEEP] button repeatedly to set the sleep time, which can be set to: 10 Mins, 20 Mins, 30 Mins, 40 Mins, 50 Mins, 60 Mins, 90 Mins, 120 Mins or Off.

## Use [TIME] button

Press the [TIME] button to display the current time.

## Changing the TV Settings

### Using the Channel Menu

- 1 Press [MENU] button to display the main menu.
- 2 Press [ $\Delta/\nabla$ ] button to select TV item.
- 3 Press [ $\triangleright/\text{OK}$ ] button to enter TV menu.
- 4 Press [ $\Delta/\nabla$ ] button to select the option, press [ $\triangleright/\text{OK}$ ] button to enter or press [ $\triangleleft/\triangleright$ ] button to adjust the option.
- 5 Press the [Menu] button to close the menu.

You can adjust:

- Tuner Mode - Select the TV signal source. You can select Antenna or Cable.
- Channel Scan - Scans for channels that have signals and stores the channels information in memory.
- Channel Skip - Deletes a channel stored in memory. When you press CH $\wedge$  or CH $\vee$ , your TV skips the channel you deleted. You can still tune to the channel using the number buttons on the remote control.
- MTS - Selects the sound mode. You can select Mono, Stereo, or SAP(Second Audio Program)
- Audio Language - Selects the audio language for a program.

# Changing the TV Settings

## Using the Video Menu

- 1 Press [MENU] button to display the main menu.
- 2 Press [ $\Delta/\nabla$ ] button to select Video item.
- 3 Press [ $\triangleright/\text{OK}$ ] button to enter Video menu.
- 4 Press [ $\Delta/\nabla$ ] button to select the option, press [ $\triangleright/\text{OK}$ ] button to enter or press [ $\blacktriangleleft/\blacktriangleright$ ] button to adjust the option.
- 5 Press the [Menu] button to close the menu.

You can adjust:

- Picture Mode - Adjusts the Picture Mode. You can select Standard, Cinema, User or Vivid.
- Brightness - You can increase or decrease the brightness of the picture. Increasing the brightness can add more light to dark areas of the picture, while decreasing the brightness can add more darkness to light areas of the picture.
- Contrast - You can increase or decrease the contrast of the picture. Increase the contrast to adjust the white areas of the picture or decrease the contrast to adjust the black areas of the picture.
- Saturation - Adjusts the intensity of the colors.
- Sharpness - You can increase the sharpness level for clearer images or decrease the sharpness level for smoother images.
- Color temperature - Changes the color temperature. You can select the color temperature from three options: Cool, Standard or Warm.
- Advanced Video - Accesses advanced video settings such as DNR, Adaptive Luma Control, Flesh Tone and MFC.

- ◊ DNR: It can optimize the picture signal from time and space; reduce the outside noise interference and return the pure initial signal. It has four ratings: Low, Standard, Strong and Off.
- ◊ Adaptive Luma Control: According to the content of picture, it can adjust brightness automatically.
- ◊ Flesh Tone: When this feature is "on" state, the TV could be the basis of image content, for color correction.

- ◊ MFC: To improve the perception of moving images. The weak setting is suitable for most programs and is recommended for general viewing. normal and strong settings can further enhance motion, however on some cases can create a halo effect on edges of moving objects. You may need to switch settings pending the contents your viewing.

# Changing the TV Settings

## Using the Audio Menu

- 1 Press [MENU] button to display the main menu.
- 2 Press [ $\Delta/\nabla$ ] button to select Audio item.
- 3 Press [ $\triangleright/\text{OK}$ ] button to enter Audio menu.
- 4 Press [ $\Delta/\nabla$ ] button to select the option, press [ $\triangleright/\text{OK}$ ] button to enter or press [ $\triangleleft/\triangleright$ ] button to adjust the option.
- 5 Press the [Menu] button to close the menu.

The options are:

- Balance - Adjusts the volume of the left and right speakers.
- Surround Sound - Turns the surround sound effect on or off.
- Equalizer - Weaken or enlarge the sound of the main frequency points.
- SPDIF Type - Selects the SPDIF type. You can select PCM, Dolby Digital or Off.
- Auto Volume Control - Turns automatic volume control on or off. The option keeps the audio in a preset range to eliminate large spikes in volume.

Note: Via SPDIF Type, you can choose the optical digital audio out type. If Audio Volume Control is On, that means audio out control is activated.

# Changing the TV Settings

## Using the Setup Menu

- 1 Press [MENU] button to display the main menu.
- 2 Press [ $\blacktriangle/\blacktriangledown$ ] button to select Setup item.
- 3 Press [ $\blacktriangleright/\text{OK}$ ] button to enter Setup menu.
- 4 Press [ $\blacktriangle/\blacktriangledown$ ] button to select the option, press [ $\blacktriangleright/\text{OK}$ ] button to enter or press [ $\blacktriangleleft/\blacktriangleright$ ] button to adjust the option.
- 5 Press the [Menu] button to close the menu.

- OSD Language - Use the right or left arrow button to choose the OSD Language among English, Spanish and French.
- Screen Mode - Use the arrow button to choose the screen aspect ration from Wide, Normal, Zoom, Cinema, Dot-to-Dot or Auto.
- DPMS - This is a good function for a computer monitor. When DPMS is on, the computer will control the screen on or off. For example, if the computer is in sleep mode, the screen will be switched off. If the computer is activated, the screen also is activated.
- Blue Screen: Turns on or off display of a blue screen as the image when there is no video signal.
- Time Setup - You can set up the exact time by yourself. You can also set up Sleeper Time and Auto Sleep Time.
- Caption: There are three items in it - Analog Closed Caption, Digital Closed Caption and Digital Caption Style.

Analog Closed Caption: CC1, CC2, CC3, CC4, TEXT1, TEXT2, TEXT3, TEXT4.

Digital Closed Caption: Service1, Service2, Service3, Service4, Service5, Service6.

Digital Caption Style: There are two Caption Styles. One is the automatic function set as the broadcaster, while the other is the custom style where you can adjust the font size, color, opacity, background color etc., accordingly.

- Reset Default - Every TV has its original setting before leaving the factory. So this function helps you restore these settings.

# Changing the TV Settings

## Using the Parental Menu

- 1 Press [MENU] button to display the main menu.
- 2 Press [ $\Delta/\nabla$ ] button to select Parental item.
- 3 Press [ $\triangleright/\text{OK}$ ] button to enter Parental menu.
- 4 Press [ $\Delta/\nabla$ ] button to select the option, press [ $\triangleright/\text{OK}$ ] button to enter or press [ $\blacktriangleleft/\blacktriangleright$ ] button to adjust the option.
- 5 Press the [Menu] button to close the menu.

When you first use this function, the default password is [0000].

Once you input this password, you can: Press  $\Delta/\nabla$  to highlight an option, then press  $\blacktriangleleft/\blacktriangleright$  to adjust the option. You can adjust:

- Change Password - The first time you use this function, use the default password. If you want to change it, first enter the new password then enter the same password again.
- Channel Block - This function will let you block any channel you want.
- Input Block - You can block the input source with this function. For example, if you want to block AV input, just highlight [AV] and press [ENTER]. The AV input will not be seen in the screen.
- Clean All - This function will let you clean all the channels stored on this TV.
- Note: If you choose this function, all the programs you preset will be lost.
- Program Block-A. Rating Enable is on
  - B. U.S. TV Ratings: You can choose TV ratings according to the illustration on the screen.
  - C. The settings for U.S. Movie Ratings, Canada (English) Ratings and Canada (French) Ratings follow Step B.

If you want to block the unrated program, please turn on this function.

Following is the description of these ratings.

Age	Defined as
TV-Y	All children
TV-Y7	Directed to older children
TV-G	General audience
TV-PG	Parental Guidance suggested
TV-14	Parents Strongly cautioned
TV-MA	Mature Audience only

Contents	Defined as
FV	Fantasy Violence
D	Suggestive dialogue
L	Strong language
S	Sexual situations
V	Violence

## Changing the TV Settings

### Using the Parental Menu

Rating	Defined as
G	General audience
PG	Parental Guidance suggested
PG-13	Parents strongly cautioned
R	Restricted
NC-17	No one 17 and under admitted
X	Adult audience only

### About Canada (French)

Rating	Description
G	General
8 ans+	8+General; Not recommended for young children
13 ans+	Programming may not be suitable for children under the age of 13
16 ans+	Programming is not be suitable for children under the age of 16
18 ans+	Programming restricted to adults

### About Canada (English)

Rating	Description
C	Children
