8 Turning the TV On for the First Time

OPERATIONS

• Please press [ENTER] to start the wizard item (press [**▲** **▼**] buttons to select your language: English, Spanish or French, select [Next] to confirm after the Welcome screen).

In the Welcome screen introduced by the welcome first devices and interfaces.

• Please press [**▲** **▼**] button to select the country where you will operate the TV.

• Please press [**▲** **▼**] button to scroll through the list of networks. Press [**OK**] to confirm, or select "Real Mode Energy Saving" is not realized.

• When the Network Setting screen opens, Home Service terms and Conditions will appear. If you selected "Scan", your TV does not need to scroll through the pages. Otherwise, please scroll through the pages until the "Accept" button is highlighted, then press the [Accept] button to set up the TV's network configuration. You can read the network configuration in its menu. For more information, please refer to the section "Network Connection and Network Setup" in the user manual.

• Press [**▲** **▼**] to select Out / Turn Mode. After pressing [ENTER] button to confirm, if you selected "Scan", your TV automatically starts Channel Installation. Save in your viewing area. If you selected "Skip Scan", your TV does not need to complete monitoring channels.

• You can read the network configuration in its menu. After saving the configuration, please enter the compile interface. It will display all informations that you set just now and then you can press [Go] to exit the wizard.

9 HELP TOPICS

When there is something wrong with your TV, you can try turning off the TV and restarting it. You can also refer to the following chart for problem and solution tips. If the problem cannot be resolved, please contact Hisense® for additional assistance.

Possible Solutions

SYMPOTMS

No sound or picture

• Confirm power cord is plugged in and the AC cord is getting electricity.

• Check if the volume is set to zero.

• Press [**▲** **▼**] to set the correct output connection on the external source and for the correct input connection on the TV.

• Make sure you have made the correct selection for the input mode for the incoming signal.

• Check network physical connection, make sure connection is correct. Enter "Network" → "Network Configuration" → make sure configuration is correct according to your network service provider.

• Connect the TV to the internet through your router or wireless. If connection fails, check network physical connection, make sure connection is correct.

• Enter "Network" → "Network Configuration" → make sure configuration is correct. Enter "Network" → "Network Configuration" → make sure "Network" account is set.

• You need to broadband (high speed) internet service with a speed of no less than 1.5 Mbps. If connection fails, check with your internet service provider or router manufacturer to determine if there is a firewall, a content filter, or bandwidth limit. If the connection still fails, contact your ISP for further assistance.

• Connect the TV to the internet through your router or wireless. If connection fails, check network physical connection, make sure connection is correct.

• Enter "Network" → "Network Configuration" → make sure configuration is correct. Enter "Network" → "Network Configuration" → make sure "Network" account is set.

• Connect the TV to the internet through your router or wireless. If connection fails, check network physical connection, make sure connection is correct.

• Check the TV's network connection test is successful.

• Check the volume settings.

• Have connected my TV and get no sound or picture.

• Check the correct output connection on the external source and for the correct input connection on the TV.

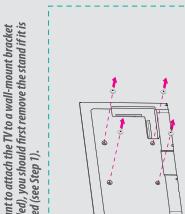

• Make sure you have made the correct selection for the input mode for the incoming signal.

1 ACCESSORIES LIST

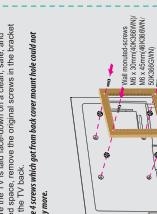

3 INSTALLING A WALL-MOUNT BRACKET

If you want to attach the TV to a wall-mount bracket (not provided), you should first remove the stand if it's pre-mounted (see Rep. 1).

The TV's rear cover.

Place the pre-drilled spaces in the corresponding bracket holes on the TV back.

Follow the instructions provided with the wall-mount bracket.
